

GROUND CLEARANCE LLC - A PROACTIVE SOLUTION IN LIEN SEARCH

(Nov. 5, 2009- Lincoln NE) In early 2009 Ground Clearance LLC was established to assist both companies and individuals with their lien search needs. The focus of the company is helping the industry do a better job of identifying debt prior to purchasing used equipment

Sue McKee, president, worked in lien search for Ritchie Bros Auctioneers for over 8 years prior to establishing Ground Clearance LLC. Leaving a good job with a good company in the current economy was not an easy decision. Ms. McKee decided that with the background in the industry and the knowledge of the risk involved in equipment deals the move was right. The economy had a lot to do with the decision also. "Today, more than ever, UCC searches need to be conducted and secured creditors need to be contacted to verify debt. Having a company available to the industry now is essential." States Ms. McKee

Ground Clearance LLC charges an affordable fee to conduct a search. Finding the liens that pertain to the equipment being sold is the basis of the business, although sometimes just a little education is all that is needed. They are happy to explain any questions regarding liens that you may have.

Ground Clearance LLC is the only lien search company who will contact creditors on your behalf. Contacting creditors on liens is not usually easy or convenient, but is necessary when doing a thorough job on making sure of the financial situation of the equipment to be purchased.
